Financial Gerontology

The study of aging as it relates to finances. Aging brings on a complexity of health modalities, financial strategies and family dynamics that most people do not become aware of until they are swimming in it. I bring a common sense approach to the needs of: individuals, nursing homes, attorneys, fiduciaries, social workers, doctor's and nurses.

How to pay for Long Term Care

When activities of daily living become a chore.

*Eating - Dressing - Bathing
Contenance - Toileting - Mobility*

What are your options?

As you age, your body dictates your needs. Pipes start rusting, pressure starts building, joints start leaking.

I refer to this as

decoupling.

Structuring Estates

for Possible Long-Term Care event.

- Showing people what assets to move.
- Who is in charge of assets?
- Family dynamics.
- Guiding the client through the psychological stress of the process.

Learn the facts of:

Medi-Cal Qualifying

Even if you think qualifying is impossible, the fact is with proper estate structuring, qualifying *is* possible. Base your decision on:

Facts vs Hearsay.

100% of my clients who follow my process are approved for Medi-Cal Benefits. With skilled care costing an average of \$10,000 per month, doesn't it make sense to know all of your options?

I bring clarity to a complex subject. If you are the type of person who prefers

blunt honesty,

with

caring

then I am your guy.
